Value Update

ISMP Newsletter

Friday, April 16, 2010

Principle is pleased to provide the latest edition of the ISMP Medication Safety Alert Newsletter of April 8, 2010. Featured topics in this issue include:

- Latest heparin fatality information
- Confusion between organ preservation solutions and IV containers
- Enteral nutrition safety
- Drug name suffixes and their meaning

Please review carefully and distribute to your staff. There are some very important medication safety issues discussed in this issue!

Thanks.

Brian Beckett
